Parents As CoEducators

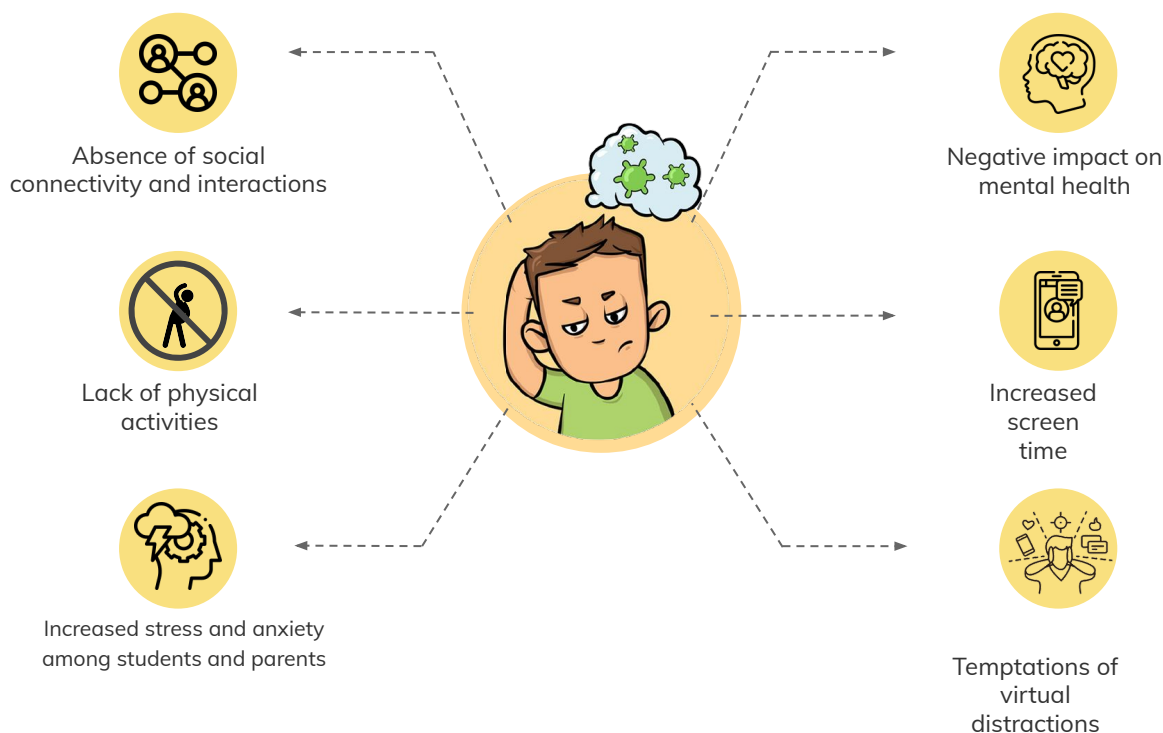

March - April 2021

**Event
Report**

CURRENT SCENARIO

Covid-19 had a volcanic impact on all of us: learners, parents, teachers and leaders. Overnight homes were transformed into classrooms and schools impelled into a virtual space. Within days, our students and families were living with online learning. The challenges faced by students everywhere as they navigate this new world are immense. However, most of the current educators have ignored to work on the socio emotional learning of children which has become more important during these times.

ABOUT THE PROGRAM

We initiated **Parents As CoEducators program** with an aim to solve the above problems. The program involved the parents unlike other online education solutions which would not only reduce the screen time of students but also enhance the relation between parent and child.

The program focused on holistic development of children studying in **Class UKG - Class 5**. Activity videos were sent **5 days a week** to the parent involving following topics and skills (1 activity each day per each topic).

Meditation

Art & Craft

Motor Skills

**Logic & Puzzles/
Everyday Science**

**Social & Emotional
Learning**

The videos was prepared in 2 languages: **English and Hindi**. The content was divided in 2 groups as per the class: **Group 1** (Class UKG, 1, 2) and **Group 2** (Class 3, 4, 5).

After publicising the events on various social media platforms, we received **261** registrations of students out of which **40%** students were from Government school, **6%** students were Homeschooled and the rest were from Private schools. Apart from this, there were **114** eligible students of Jagriti Vidya Mandir(JVM), a school run by GYWS to provide free education.

As an organization aiming to encourage the youth and providing them with a platform to engage in social activities, we conducted the **Volunteering Program** for this initiative. In this program, the volunteers have worked on **coordinating communication** with the parents, learnt about the ground level **planning and execution** of a social initiative and developed the skills to collect feedback and spontaneously inculcating it into the program to enhance the beneficiary experience.

PARENT TESTIMONIALS

All activities are good and my son **enjoyed** every activity. They were **helpful** to grow **children's brain**. I want to **say thank** to GYWS for this program.

- **Parent of Aaradhya Sharma, Class 1**

Your activities are **very interesting** and need **little preparation**... leaving our kids engaged with it... Very good efforts by the whole team of Gopali Youth Welfare Society...👍. Keep up the good work.. Thank you

- **Parent of Tishika Manwani, Class UKG**

My ward was initially stuck with the activities but later with time, she was **enthusiastic** towards them. I was able to interact more with it and know her interests in **yoga and drawing**. Overall, a really **nice initiative** and great job. Thank You

- **Parent of Deepanshikha Mahato, Class 1**

The overall program was very **nice**. There were many areas where we got to learn something and in some my child learnt. The activities were **interesting**, my child was **focused** and very much responsible while doing the activities. He also discovered a keen interest in **drawing and craft activities**.

- **Parent of Deb Lama, Class 5**

My daughter enjoyed the program especially the **Art and Craft** Activities. The program gave children a chance to learn something new when the schools are closed. I am waiting for this program to **start again**.

- **Parent of Aarushi mantri, Class 1**

VOLUNTEER TESTIMONIALS

It was a great experience working with GYWS. Through this program, I was able to learn how a **social initiative** is conducted in a very detailed manner. From knowing about the **problem in-depth** to **creating an impact**, altogether it was a remarkable voyage.

- **Jayashree Patra**

Experience with GYWS was **very nice**. One of the parents I called was working as a **teacher**. She was **very happy** about these activities and she wants to make students (of school in which she is working) do these activities. I was extremely glad to hear that. Not only this, but listening to **parents feedback** and how they found activities very important for their **child's growth** was **phenomenal**. That was the best thing for me.

- **K Sravya**

Well overall it was **really amazing** to work here. It gained and **boosted my confidence** to talk to people and improved my **communication skills**. It was enjoyable too and hope to work in future.

- **Farhan Shaikh**
